

Congress of the United States
House of Representatives
Washington, DC 20515-3605

July 21, 2021

The Honorable Joseph R. Biden, Jr.
President of the United States
The White House
Washington, D.C.

Dear Mr. President:

We write to you today asking that you immediately reject calls from Congressional Democrats to include amnesty in the \$3.5 trillion budget reconciliation framework. Simply engaging in this very debate will further destabilize the crisis at the border and bankroll vicious criminal cartels. In reality, enacting amnesty for millions now will make this crisis permanent by signaling our borders are effectively open to all.

Your candidacy for President was based on promises of “unity” for all Americans. Yet amnesty would be another in a long line of examples of the most radical public policy agenda from a President in modern American history.

Your administration has supported initiatives that appear designed to lead to a one-party Democrat rule. These include a federal election takeover that amounts to taxpayer-funded campaigns for politicians, open border policies, and an unprecedented level of spending that not only increases dependence on government but has contributed to the inflation millions of ordinary Americans are feeling every day. Not only have your actions betrayed your calls for unity, you have also regularly invoked images of Jim Crow and the Civil War to smear the concerns of Trump supporters and Republican legislators who support voter I.D. laws.

Rejecting calls to inject amnesty into reconciliation would be a meaningful sign that you are finally willing to find common ground with your political opponents. Everyday Americans we represent are tired of observing your party’s crusade to end voter I.D. laws while at the same time going to every length to expand their ranks of voters by millions through amnesty. The citizens of this country are smarter than you think, they see that this is about one thing: a partisan power grab.

We implore you to put substance behind your calls for unity and to start by rejecting calls to inject amnesty into reconciliation.

Sincerely,

Bob Good
